Hiring Manager
Five9, Inc.
Enterprise Solution Consultant - DACH
Germany (Remote)

Dear Hiring Manager,

I am writing to express my interest in the Enterprise Solution Consultant - DACH position at Five9. With 15+ years of enterprise telecom sales at AT&T and Spectrum Enterprise, native English and German fluency, and deep expertise in cloud UC and contact center solutions, I can drive immediate value for Five9's DACH expansion.

As Unified Communications SME at Spectrum Enterprise, I was the primary presales technical resource for three years. I designed UC architectures, delivered demos to C level executives, and turned complex solutions into clear business outcomes. I partnered with Account Executives on enterprise deals, ran requirements analyses, and built custom presentations that closed business. This maps directly to Five9's need for a Solution Consultant who can design cloud contact center solutions with omnichannel routing, AI, CRM, and workforce optimization.

My technical depth spans VoIP, SIP, MPLS, SD WAN, UCaaS, and managed security. I also have hands on AI experience building classification systems and conversational automation platforms, which positions me to guide customers through responsible AI deployment and support POC implementations with measurable outcomes.

What sets me apart is that I am a German citizen, raised bilingual, with real experience selling into enterprise accounts. I earned AT&T's Diamond Club award as a Top 1% performer nationally and managed a \$9.5M billing portfolio across government, education, and healthcare. I know how to win deals and I know the DACH market.

I look forward to discussing how my experience can support Five9's growth in the DACH market.

Sincerely,

Lamin Traoré
