WORK EXPERIENCE

Owner and Private Practice Psychiatrist | Paulina Kaiser, MD LLC | July 2023 - Present

- Possess advanced knowledge and expertise in diagnosing and treating a wide range of psychiatric disorders across different age groups
- Skillfully integrate psychotherapy and psychopharmacology to create comprehensive treatment plans tailored to individual patient needs
- Establish and manage all aspects of private practice operations, including strategic planning, budgeting, marketing, and regulatory compliance

Outpatient Psychiatrist | Dekalb Community Service Board | August 2023 - Present

- Provide psychiatric medication management and psychotherapy to underserved patients, primarily with serious mental illness
- Demonstrate cultural competence and sensitivity when working with diverse patient populations, adapting interventions to respect individual backgrounds and beliefs

Emergency and Consultation-Liaison Psychiatrist | Grady Memorial Hospital | July 2023 - Present

- Rapidly assess and manage acute psychiatric crises, including suicidal ideation, severe anxiety, psychosis, and substance-related emergencies
- Employ evidence-based interventions to de-escalate volatile situations and ensure the safety and stability of patients
- Consultation-liaison: Providing psychiatric consultations. Proficient in differentiating between primary psychiatric conditions and medical conditions with psychological symptoms

Outpatient Psychiatry Chief Resident | Emory University Department of Psychiatry | July 2022 - July 2023

- Lead weekly psychotherapy supervision for junior residents, orienting them to psychotherapy and serving as their mentor
- Arrange outpatient clinic call schedules for junior residents
- Manage psychotherapy referrals into the resident training clinic, including screening, assigning patients, and referring out

Psychiatry Resident Physician | Emory University Department of Psychiatry | July 2019 - July 2023

- Work as a psychiatry trainee in numerous settings including emergency department, inpatient psychiatric unit, and outpatient clinics
- Lead multidisciplinary team of behavioral health professionals on numerous inpatient psychiatric units at Grady Hospital, Emory Wesley Woods Hospital, and Atlanta Veteran Affairs Hospital
- Manage own patient roster in outpatient psychiatric clinic doing medication management for insured and uninsured/underserved populations
- Practice 8 hours of psychotherapy per week as part of the resident psychotherapy track

RESEARCH EXPERIENCE

Emory University, Department of Psychiatry | PI: Timothy Moore, MD | February 2022 - Present

- Currently editing and preparing manuscript for publication

- Studying the impact of antipsychotic vs. ECT and benzodiazepines on catatonia

Keck School of Medicine of USC, Department of Psychiatry | PI: Lon Schneider, MD | October 2018 - May 2019

- Studying how physicians promote alternative treatments for dementia on their websites
- Developed meta-analytic search strategy for selecting physician websites via google

Children's Hospital Los Angeles, Department of Psychiatry | PI: Susan Turkel, MD | June 2016 - March 2019

- Studied benefits of mirtazapine in medically ill children with depression and anxiety
- Extracted retrospective chart data from over 200 patients on improvement of depressive symptoms, adverse effects, lab values, weight changes
- Conducted statistical analyses on data extracted; created visual representations of analyzed data

UCLA, Department of Psychiatry and Biobehavioral Sciences | PI: Carrie Bearden, PhD | Sept 2011 - June 2014

- Studied whether specific EEG abnormalities such as Mismatch Negativity could predict transition to psychosis in the prodromal phase of schizophrenia
- Administered computerized cognitive tests and auditory stimuli to teenagers at high risk for developing schizophrenia to elicit evoked potentials measured on EEG

University of Heidelberg, Department of Psychiatry | PI: Corinna Reck, PhD | June 2011 - Sept 2011

- Studied effects of postpartum depression and attachment disorders on child development
- Visited perinatal units in local hospitals to recruit participants; scheduled and conducted telephone interviews and administered psychological assessments such as Strange Situation and Still Face
